Asilomar General Plan Public Meeting

A public meeting will be held on 7 p.m. on March 22, 2001 at Asilomar's William Penn Mott Jr. Training Center to discuss issues and concerns regarding Asilomar State Beach and Conference Grounds. The center is located off Crocker, between Sinex and Sunset in Pacific Grove.

This two-hour meeting will include an overview of the general plan process for this unit of the State Park System, followed by identification and clarification of issues and concerns that have already been identified. Members of the public are encouraged to attend and provide their personal thoughts and ideas about issues and concerns that the park unit and its concessionaire may have to address in the future and which should be included in the general plan.

An Asilomar General Plan newsletter is now available by contacting the Asilomar State Park office at 831-372-4076. The newsletter and additional printed information will be available at the general plan meeting.
